- Pg 11 Local 2022 Events Scheduled
- Pg 12 Kocher Park & Johnson Flats Events

## **ASSOCIATE DIRECTORS**

Brian Campbell Jeff Giger Matt Hess

Ed Lease Jessica Lehman Tonya Boston-Sagar

Contact Nancy at 570-317-9477 if you are interested in serving as an associate director.

### **MISSION STATEMENT**

To lead the citizens of Columbia County in sustainable use of our shared agricultural and natural resources through partnerships, education, and technical assistance, in order to assure the best quality of life for future generations.

Photo: A log-framed cross vane installed in Hemlock Creek at the Moore property as part of a fish habitat improvement and streambank stabilization project completed this summer in Hemlock Township.

### **DISTRICT NEWS**

CONTACT: Nancy Corbin 570-317-9477 nancy.corbin@columbiaccd.org

#### **MORE CHANGES IN 2021**

While 2021 was nowhere near normal, even with COVID-19 restrictions loosening, the CCCD persevered and welcomed change. We packed up and moved to the lower level of the Ag Services Building (Suite 103). We also welcomed three new employees: Beth Gensemer (Administrative Assistant/Bookkeeper), Aaron Eldred (DGLVR/ Watershed Specialist), and Abby Sieg (Watershed Specialist and Environmental Educator). We wish the best for outgoing staff Kendra Craig, Rain Escovedo, Brittney Hartzell, and Tracey Oman.

Photo (R): Staff cleanup at Kocher Park in October. (L-R): Aaron Eldred, Abby Sieg, Beth Gensemer, Patrick McCarthy, Barry Travelpiece, and Nancy Corbin.

#### **CELEBRATING 45 YEARS OF SERVICE**

Barry Travelpiece marked 45 years of service with the Conservation District in October! Barry's dedication and professionalism throughout his tenure is a testament to his character, creating a positive reflection

*Photo: Barry with his service award from the District BOD* 

of district programs. His wealth of knowledge is unsurpassed. Congratulations Barry!

#### **OUR BOARD OF DIRECTORS GROWS**

The district welcomed three new Associate Directors in 2021. Matt Hess joined the Board in July, and Jessica Lehman and Jeff Giger joined the Board in December. All three grew up in Bloomsburg. Matt is the Executive Director of the Columbia County Housing & Redevelopment Authorities and is a residential planner. Jessica is an attorney with Hill, Turowski, James & Lehman, LLP and farms with her family. Jeff is a professional engineer for Team Ag, Inc. and serves on the Fair Board as Livestock Superintendent. Their knowledge and experience is a great asset for the Conservation District! Thank you to all of our Conservation District Directors and Commissioners for their time, talents, and continued support of district programs and events!

Photo (L-R): Ed Lease, Dennis LeVan, Don Edwards, Debbie Jarrard, Joan McCarty, Brian Sokol, Doug Brown, Jessica Lehman, and Jeff Giger. (Missing from photo: Tonya Boston-Sagar, Brian Campbell, Matt Hess, and Chris Young)

### **DISTRICT YEAR-END RECAP**

CONTACT: Nancy Corbin 570-317-9477 nancy.corbin@columbiaccd.org

#### **2021 PROJECT ACCOMPLISHMENTS**

Thank you to our partners who collaborate on district projects for agriculture, streambank, buffer, and education projects to promote soil health and water quality

- **400 staff site visits** throughout Columbia County to assist landowners and farmers
- **\$629,400 of road projects** completed or contracted to reduce stream pollution for 7 municipalities
- **1,500 acres** of cover crops planted with grant fund assistance to reduce nutrients and sediment in streams and improve soil health
- Assisted in the completion of **28 REAP applications** totaling over **\$800,000** in tax credits
- 22 stream permits issued for responsible work in our streams; 16 NPDES permits issued for 500+ project acres with 220 acres of disturbed land
- 5 agriculture events promoting sustainable practices
- **20 environmental education events and programs** reaching thousands
- 1200 trees planted via 10 Million Trees Program
- More than **\$600,000 in grant funding** secured to complete on-farm conservation practices
- **5** new participants in the Better Backyard Program to restore habitat and reduce stormwater impacts
- \$220,000 Farmland Preservation Program funds
- 10 sanitary well caps distributed
- Many staff trainings to assist landowners with conservation projects

#### **GRANTS RECEIVED**

### **ANOTHER BUSY YEAR FOR CONSTRUCTION ACTIVITIES**

CONTACT: Barry Travelpiece 570-317-9469 barry.travelpiece@columbiaccd.org

# *Photo: Sediment basin trapping sediment from a Mifflin Township construction site*

The CCCD had another busy year of construction activities with a 30% increase in permits issued. This is due in part to the severe storms experienced in the region. Permits were issued for 16 sites and construction was ongoing on 12 sites. The District inspects these sites as needed to assure that the permit conditions are being followed and that the nearby streams are protected.

Landowners please note that permits are needed to remove gravel or stone from a stream, or to stabilize a streambank with stone or wood structures. Permits are not needed to remove logs or other floatable debris from a stream or culvert, provided the work can be done without putting heavy equipment into the stream. Working from the bank to lift material from the stream with a backhoe or similar equipment is the preferred method of removal. Skidding material through the water is not recommended when other methods are possible. If it is necessary to enter the stream with equipment, contact the District to determine required permits for the work.

#### NEW NPDES SMALL CONSTRUCTION PERMIT EFFECTIVE MARCH 1, 2022

DEP published final guidance for the Pag01 permit. This new permit simplifies the design and review of small construction sites requiring a NPDES permit. Sites with less than 5 acres of earth disturbance and not in special protection watersheds may qualify for this permit. There are limits on the permanent impervious surface area after construction, and specific controls and practices will be required in the design.

New permit benefits include no intensive stormwater analysis and a reduced review and approval timeline.

# **AGRICULTURE PROGRAMS AND OPPORTUNITIES**

CONTACT: Patrick McCarthy 570-317-9468 patrick.mccarthy@columbiaccd.org

#### DISTRICT HOSTS SOIL HEALTH FIELD DAY

The district sponsored a soil health field day through a DEP Growing Greener Grant in July at Scattered Acres Farms in Numidia. Farmers and other ag industry members listened to presentations by Hoorman Soil Health Services on planting green and rolling cover crops. Attendees also viewed updated no-till and variable rate spray equipment that can be used to improve soil health and decrease input costs. Rosetree Consulting gave a field demonstration on corn nutrition requirements and the use of new technologies to improve yields. The day wrapped up with a panel discussion of local farmers describing their experiences with cover crops and planting green into live cover. Special thanks to the Richard family for hosting the event on their farm.

#### **REAP PROGRAM UPDATES**

Select practices in the REAP tax credit program are now eligible for 90% reimbursement of costs

- Riparian forest buffers at least 50 ft wide
- Stream crossings and livestock exclusion fencing and related BMPs (animal trails/walkways, off-stream watering systems)
- Soil health program soil tests (PASA Soil Health Benchmark Study, NRCS Soil Health, CAP, etc.)

#### FARM PROJECT FUNDS SECURED

Over \$600,000 for on-farm conservation practices was awarded in 2021. Funding sources are listed on page 3. Projects include a roofed heavy use areas at a beef operation, a dairy farm, and a wetland restoration project to manage stormwater. The district also secured funds to create 10 acres of wildlife meadow on farms. This funding is focused on field border areas as well as portions of fields that are too steep or wet to profitably farm. We are actively seeking landowners to take part in our soil health practice reimbursement programs. Funding is flexible and can be used for a wide variety of onfarm practices including: animal housing areas, creating pasture, reducing cropland erosion, cover crops, planting green, pollinator strips or any other concerns you have identified at your operation, contact Patrick McCarthy to schedule a site visit.

#### LOAN EQUIPMENT FROM THE DISTRICT

<u>AerWay</u>: Use our Aerway in pastures or hayfields struggling with hard pans or compaction. The implement's tines allow for increased water retention and aeration with minimal soil disturbance. Increased channels for air and water provide better yields of hay and pasture forage and a decrease in runoff of water and nutrients.

<u>Spotted Lanternfly Circle Traps</u>: 2021 saw confirmed reports of spotted lanternflies (SLF) in Columbia County. The district has a limited supply of free circle traps to help control SLF. Please contact Patrick McCarthy if you suspect SLF on your property. Patrick can recommend a treatment plan once confirmed. A video on our website shows how to make a DIY circle trap.

**<u>I&J Crop Roller</u>:** Improve your soil health and reduce production costs with our six-foot wide crop roller. Roll mature cover crops for erosion

protection, water infiltration, and enhanced weed control for increased crop yields.

Photo (R): Crop roller on display at the Bloomsburg Fair

# **ROAD PROJECTS SAVE TIME, MONEY, & PROTECT WATER RESOURCES!**

CONTACT: Aaron Eldred 570-317-9478 aaron.eldred@columbiaccd.org

**Purpose:** Sediment and aggregate from rural roads have a large impact on our streams. The CCCD receives annual funding available to municipalities through the State Conservation Commission's (SCC) Dirt, Gravel, and Low Volume Road Program (DGLVR). Municipalities can apply for funding to help rehabilitate public roads that are negatively affecting our local streams by reducing impacts through road projects.

Funding: Through our Quality Assurance Board, the District administers SCC funds to improve the water quality of our streams. Approximately \$80,000 for low volume road projects (paved or sealed roads with less than 500 cars per day) and \$370,000 for dirt and gravel road projects that impact a stream. In 2021, \$629,430 was paid to eligible municipalities for DGLVR projects.

*Eligibility & Training:* Projects must meet environmental requirements to be considered for funding. Projects must negatively impact a stream and reduce environmental impacts. Environmentally Sensitive Maintenance (ESM) training is required, and permits, if needed, must be obtained. Training is required and available. See Page 11 for a training opportunity. Call the District to schedule a site visit and begin the application process!

### \* 2022 funding round application deadlines: April 15, July 15, September 15 \*

#### **Equipment Loan Program:**

Scarifying Grader Blades ~ Recycles hard packed aggregate and removes potholes/gullies with less effort. New PTO Leaf Blower ~ Clears ditches and culverts of debris without the need to re-grade/re-shape ditches, which can remove vegetation and displace sediment to our streams.

#### 2021 DGLVR Contracted Projects:

Heights Rd, Berwick Boro (DG) Taylor Rd, Madison Twp (DG) Belles Rd, Orange Twp (DG) Yost Hollow Rd, Briar Ck Twp (LV)

2021 DGLVR Completed Projects:

Keller School Rd, Cleveland Twp (DG) Shultz Hollow Rd, Jackson Twp (DG) Buck Rd, Orange Twp (DG)

### **PROJECT HIGHLIGHT—BUCK ROAD, ORANGE TOWNSHIP**

Buck Road was a three-year, phased project involving 6,200 tons of fill, 6 new cross pipes, 70' of underdrain, 150' of ditch stabilization, 5 broad-based dips and 2,700 linear feet of DSA placement. Each of these ESM practices prevent sediment from entering Stony Brook, an exceptional value, wild trout stream, while reducing road maintenance requirements and costs for Orange Township.

Photo L-R: Installation of new cross pipe, cross pipe outlet with stabilization, and finished DSA surface.

Creating better roads and cleaner streams!

# WATERSHED GROUP HAPPENINGS

CONTACT: Abby Sieg 570-317-9491 abby.sieg@columbiaccd.org

#### Briar Creek Association for Watershed Solutions (BCAWS)

In 2021 BCAWS maintained a naturalized stream project and monitored two streambank reconstruction projects. They analyzed and offered remedies to flooding in a Briar Creek sub-watershed that was hit hard by extreme rainfall events as well as consulted local residents on best practices for property maintenance and overall watershed health. Members monitored invasive and non-native species occurrence and held webinars on various environmental topics. BCAWS meets on the 4<sup>th</sup> Wednesday of each month.

Photo (R): BCAWS President Ben Franek and watershed project volunteers

**Roaring Creek Valley Conservation Association (RCVCA)** RCVCA continued quarterly water monitoring at 14 sites in 2021. They also provided a stipend for PSU student, Emma Steely, to conduct macroinvertebrate surveys in the watershed. Emma presented her research in early January 2022. RCVCA conducted the annual trash pickup at their adopted highway site on SR 42 in Weiser State Forest's Roaring Creek Tract. Several association members assisted in the 2021 Hellbender Half Marathon & 5k Race in August and at a display booth during the Weiser State Forest's Fall Drive-Thru. RCVCA plans to continue monthly meetings, using Zoom due to COVID-19. The group looks forward to working with landowners to identify and support conservation work in the watershed. RCVCA meetings are on the 3<sup>rd</sup> Thursday of each month. Visit www.rcvca.org or follow them on Facebook.

Photo (L): Scholarship awardee Emma Steely works on RCVCA-supported research

#### CONTACT: Aaron Eldred 570-317-9478 aaron.eldred@columbiaccd.org

<u>Catawissa Creek Restoration Association (CCRA)</u> In addition to maintaining three passive water treatment facilities that feed Catawissa Creek to improve water quality impacted by acid mine drainage, CCRA hosted a tour of the watershed with DCNR officials. As a result of the tour and collaboration with CCRA members and partners to submit an application, Catawissa Creek was one of four PA waterways nominated for River of the Year by DCNR! CCRA meets the 3<sup>rd</sup> Wednesdays on even months. Contact the District for time and location. <u>www.thecatty.org</u>. *Photo (R): Creek tour with DCNR and CCRA members and partners* 

Photo: Members at the FCWA Container Garden Contest

**Fishing Creek Watershed Association (FCWA)** FCWA purchased water quality monitoring equipment in 2021 to track water quality data. Supporting Kocher Park continued with cleanups, rain garden maintenance, and promoting the park. Money raised at their annual Container Garden Contest was used to buy plants for the park. The group organized numerous educational presentations throughout the year including pollinators, climate resiliency, trees of Kocher Park, watershed geology, and more. FCWA also hosted a Private Well Water Education and Testing workshop by Penn State Extension for county residents. FCWA meets on the 2<sup>nd</sup> Monday of each month.

www.fcwa.net

## **ENVIRONMENTAL EDUCATION - ENVIROTHON**

CONTACT: Nancy Corbin 570-317-9477 nancy.corbin@columbiaccd.org

The Envirothon is a hands-on environmental problem-solving competition that provides team building and leadership experiences for students. Each year, high school and middle school students from Columbia, Montour, Northumberland, Snyder and Union counties compete at our Susquehanna Valley Regional Envirothon competitions. The winning high school team from each county goes on to compete at the PA State Envirothon competition. After both competitions were canceled in 2020 and hosting virtual competitions in 2021, staff, volunteers, and students alike are excited for the 2022 Envirothon!

#### 2021 ENVIROTHON GOES VIRTUAL

Due to the pandemic, the 2021 County and State High School Envirothons were virtual competitions. Columbia and Montour Counties partnered to administer the high school tests. Central Columbia High School's team, consisting of Brody Beaver, Caroline Fitt, Jane Corbin, Lucas Zimmerman, and Olivia Hubler, took first place in the county and overall. Their team advisor was Ag Teacher and CCCD Director, Doug Brown. Central finished 11 out of 58 counties in the state competition!

#### **ENVIROTHON STUDY RESOURCES**

The CCCD has a variety of resources available to students and advisors to help prepare for the Envirothon. Teachers in the county can also borrow these resources any time to help prepare and teach lessons on topics such as water quality, wildlife or tree identification, and many more.

A highlight of our supplies is the Urban Wildlife Kit donated by the PA Game Commission. The kit includes teacher and student guides, animal skat and tracks replicas, three animal skulls, and 12 animal pelts. The CCCD has a variety of skulls available

for use that are not in the kit, including a black bear!

Photo Above: Central Columbia's Envirothon team who took first place in the regional competition. L-R: Lucas Zimmerman, Mr. Seesholtz (advisor), Caroline Fitt, Olivia Hubler, Jane Corbin, Mr. Doug Brown (advisor), Brody Beaver.

#### **2022 ENVIROTHON**

The Susquehanna Valley Regional Envirothon competitions have returned! The high school competition will be held on April 26, 2022 at the Shikellamy State Park Marina, and the middle school competition will be held on May 10, 2022 at the Montour Preserve.

Students will be tested on five different topics, including aquatics, soils, wildlife, forestry, and the current issue.

The winning high school team from each county will compete in the State Envirothon on May 25, 2022 at Camp Mount Luther. The state event consists of station testing and a digital, oral presentation for the current issue: Waste to Resources.

# Thank you to our 2020 County Envirothon sponsors. We have held donations from the canceled 2020 event to use for the 2022 in-person Envirothon. We appreciate your support!

## **ENVIRONMENTAL EDUCATION & OUTREACH**

CONTACT: Abby Sieg 570-317-9491 abby.sieg@columbiaccd.org

#### WATER WELL CAPS DISTRIBUTED AT COALITON SANITARY WELL CAP WORKSHOP

The Columbia-Montour Coalition for Source Water Protection (CMCSWP) received a DEP Environmental Education Grant to conduct sanitary well cap workshops. Chairperson and BU Professor, Jen Whisner, presented a workshop on residential water wells, water contaminants, and how to protect your drinking water. Each workshop participant utilized a BU groundwater model to visualize ways contaminants can enter wells and received a sanitary well cap for their well.

> **2022 Well Cap Workshop Locations TBA** March 7 & March 28

*Photo: Jen Whisner helps workshop participants utilize groundwater models at the November 2 sanitary well cap workshop at the Ag Services building*

Senior pursuing a degree in education focused on ag or science

Senior pursuing a degree in environmental/natural sciences

#### CCCD NOW A FISHING TACKLE LOANER PROGRAM SITE!

The district has partnered with the PA Fish and Boat Commission to be a Fishing Tackle Loaner Program Site (FTLP). The FTLP provides people with fishing equipment without requiring them to purchase gear. This is ideal for people, families, or groups who want to try fishing before purchasing gear. Staff will become certified fishing instructors this spring. Once certified, the district, as a FTLP, can offer fishing programs, or loan equipment without staff present. See our website for license requirements and details on equipment availability. Site equipment includes 10 rods, reels and tackle.

### MAKE A DIFFERENCE

Visit our website for program information like these and make an impact in Columbia County!

#### EARTH DAY POSTER CONTEST Deadline April 22, 2022

Thank you to Brian (Farmer Moofy) and Erika Campbell for their continued sponsorship of the CCCD Poster Contest with cash prizes and corn certificates for participating students.

> 2022 Theme: Healthy Soil Healthy Life Deadline: April 22nd

Students will use art and science as they learn about healthy soils. Winning posters are entered into the State Poster Contest. Congratulations to Kathryn Polstra, Bloomsburg Christian student, for placing first, 10th-12th grade category, for both Columbia

County and the State! The 2021 theme was Healthy Forests, Healthy Communities.

10

CCCD board member, Joan McCarty, lead updating the 2015 Girl Scout Silver Award Tree Identification Project after storm damage. 34 tree identification signs were made by Doug Brown, CCCD board member, and his students at Central Columbia H.S. Sign posts were carved and donated by Rich Kisner, Park Committee member. Abby Sieg, staff, updated the tree ID map available at the park for visitors.

Photos: CD Directors Joan McCarty and Doug Brown working on the updated tree ID signs at the park

Kocher Park has been a wonderful outdoor recreation outlet for the public during the pandemic. The park has been very busy with visitors enjoying the sights and sounds of nature.

Check our website or Facebook for upcoming

events.
